DREAM HOME EXHIBITION

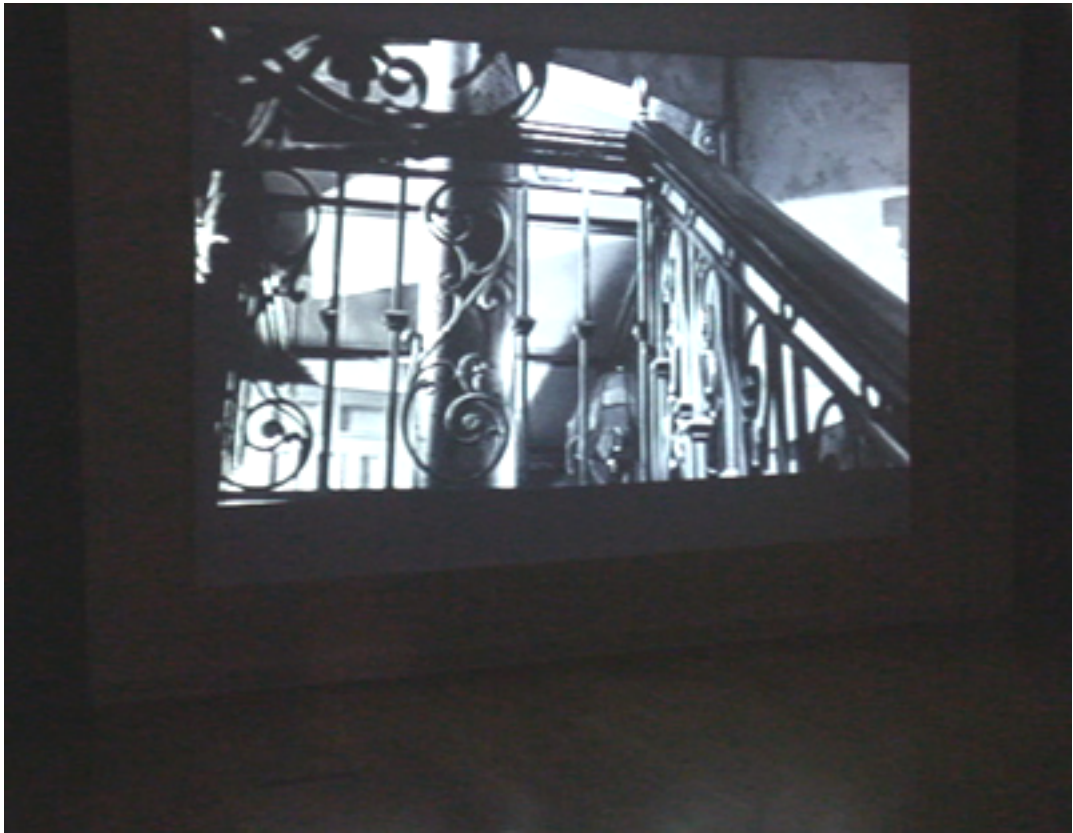

5 April – 6 May 2007
Novas Gallery, London UK

INTERIOR VIEW

Interior View splices together various shots from popular Horror and Haunted House Movies, which are interiors and are devoid of any people, to create a continuous and unsettling journey through the interior of a house. The dream of the home turns into the nightmare of being caught in the endless labyrinth of staircases, corridors and rooms where the feeling of security is replaced by a constant sense of danger. Ultimately *Interior View* is also a journey through the interior of the viewers mind and cinematic memory.
